Dear Sir:

Petitioner, Microsoft Corporation, a corporation organized and existing under the laws of the State of Washington, and having its primary place of business at One Microsoft Way, Redmond, Washington 98052-6399, represents that it is the exclusive owner of the entire right, title and interest in the above-identified application, by virtue of an assignment recorded at Reel 010759, Frame 0538 on April 4, 2000 in parent Application Serial No. 09/550,362 (now U.S. Patent 6,683,600).

Petitioner, Microsoft Corporation, hereby disclaims, except as provided below, the terminal part of any patent granted on the above-identified U.S. Patent Application No. 10/723,645, which would extend beyond the expiration date of the full statutory term, as presently shortened by any terminal disclaimer, of U.S. Patent No. 6,683,600. Petitioner hereby agrees that any patent so granted on the above-identified application shall be enforceable only for and during such period that the legal title to said patent shall be the same as the legal title to U.S. Patent No. 6,683,600, this agreement to run with any patent granted on the above-identified application and to be binding upon the grantee, its successors, or assigns.

In making the above disclaimer, Petitioner does not disclaim the terminal part of any patent granted on the above-identified application prior to the expiration date of the full statutory term, as presently shortened by any terminal disclaimer, of U. S. Patent No. 6,683,600, in the event that U. S. Patent No. 6,683,600, expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321(a), has all claims cancelled by a reexamination certification, or is otherwise terminated prior to the expiration of its full statutory term as presently shortened by any terminal disclaimer, except for the separation of legal title stated above.

The undersigned is an attorney of record.
